

# Pedestrian Entrance Control

Face Recognition - EvolveFace 5T

The image shows a white EvolveFace 5T device with a screen displaying a face scan. A light beam from the device illuminates a grid of six feature icons. Each icon is a black circle with a white symbol, and each has a corresponding text label below it.

- Body Temperature Detection**: Icon of a thermometer.
- Detection minimum unit : 0.1°C**: Icon of a syringe.
- Abnormal temperature automatic alarm**: Icon of a speech bubble with '38°'.
- Wearing Mask Identification**: Icon of a face with a mask and a magnifying glass.
- Abnormal Temperature Warning**: Icon of a warning triangle.
- Binocular Live Detection**: Icon of a face with a binocular-like frame.

Face Recognition - Evolving the way you manage your pedestrian entrance control.

# Face Recognition - Time & Attendance

## EvolveFace 5T

EvolveFace 5T detection face recognition terminal with time, attendance and temperature sensor.

Before allowing entry the forehead temperature sensor will check the persons temperature and decides whether to allow entry or not.
